Set & Forget®

Chaney Instrument Co. introduces patented Set & Forget® technology. With Set & Forget technology, you will never have to adjust the time settings on your clock for Daylight Saving Time (DST). Set & Forget clocks come with a built-in internal calendar designed to update the clock automatically. On the Spring and Fall DST dates, at 2:00 am, the clock hands will fast forward until the correct time is reached.

Directions

1. Insert one fresh 1.5 volt AA battery to power the clock.
2. Set the clock to the correct time using the **Time Adjustment Wheel**.
3. Set the **DST switch** to the **"ON"** position.

If you do not want the clock to change for Daylight Saving Time, place the **DST switch** on the **"OFF"** position.
